Vidyapeeth**

annual report

2024-25

Vision

- The institute envisions the hope that its graduates and postgraduates will be the leader of tomorrow. Their education is patterned with this view that creates an ambience in which new ideas, research and scholarship flourishes.
 - To develop an internationally recognized centre for excellence of pharmaceutical education and research in the Country.
 - To form the curriculum so as to give maximum exposure to students with regard to the latest development in technology and trends within the pharmaceutical industry.
 - To supplement the academics with maximum practical applications of theoretical knowledge.
- To be a world class Institution of Pharmaceutical Science and
- Technology in the state and in the country as a whole providing facilities in the institution required for leading technological and socio-economic development of the country.
 - To train and prepare a high class pharmaceutical professionals for global competitiveness.
 - To ensure high quality of education to students of all sections of the society at affordable cost.

Mission

The institute aims to become a centre of excellence in pharmaceutical education & research. We are ready to provide quality pharmacy education supporting better health care program of the nation by training & educating students to contribute to the health of the community and who will become leaders and innovators of tomorrow having concern for the community and fellow beings. The mission of the Institute is “Learn to live”- a dignified life by providing high quality technical education to contribute to the nation and the world at large with responsible, wise, passionate and efficient pharmaceutical professionals for the betterment of human beings.

Message from Vice Chairman

A warm welcome to Maa Kamla Devi Group of Institutions and K.P. Singh Memorial Institute of Pharmacy! Established in 2004, our institute has a rich history of academic excellence and holistic development. Maintaining a tradition of success, we continue to excel in both academics and extracurricular activities. At our institution, we believe every student is unique. We encourage them to explore innovative ideas and creativity, helping them shape their aspirations and achieve their dreams. Our colleges are renowned for their strong academic foundation, disciplined environment, and student-friendly atmosphere, offering diverse opportunities in sports, NCC, NSS, cultural activities, and more. With state-of-the-art infrastructure, including a well-equipped library, playground, canteen, Wi-Fi, and IT-based services, we provide an environment that fosters learning and growth. Our dedicated faculty and supportive staff play a crucial role in achieving our institutional goals. We recognize the importance of preparing our students to face emerging challenges in life and the workplace, transforming them into exciting opportunities while staying rooted in our values and traditions. As an institution, we strive to nurture the inherent potential of our students, empowering them to contribute to a just and inclusive society. Wishing all students of Kamla Devi Shri Pitambara Vidyapeeth and K.P. Singh Memorial Institute of Pharmacy and Nursing a successful and fulfilling journey ahead.

Shachi Singh

Vice-Chairman , Maa Kamla Devi Shri Pitambara Vidyapeeth

Message from Chairman

Embodying virtues such as compassion, justice, equality, love, and unity, we have illuminated a sacred path for humanity. In alignment with this path, the MKD Group of Education and the K.P. Singh Memorial Institute of Pharmacy and Nursing have acknowledged the pivotal role of education in contemporary society. This vision materialized in 2004 with the establishment of Maa Kamla Devi Shri Pitambara Vidyapeeth Inter College, a self-financed institution affiliated with the UP Board. Since its inception, the college has been a beacon of knowledge, disseminating education throughout the community. Education significantly impacts a nation's advancement; an enlightened society is fundamental to societal progress. With this perspective, India is advancing towards empowerment through education. Education enriched with values not only enhances vocational competencies essential for thriving in a competitive environment but also fosters character development, moral integrity, and self-awareness. In today's context, education aims to cultivate individuals who are confident, self-reliant, empathetic, analytical, and compassionate. Our college adheres to these core principles to deliver quality education to our students, gradually establishing a reputable presence among esteemed academic institutions in the city. The institution commenced with an Inter College in Sitapur in 2004. It expanded its scope by introducing the Uttar Pradesh Best Industrial Training Institute in Lucknow and Sitapur in 2011 with 72 units, a B.Ed. program in 2015, and a BTC program in 2016. Further growth occurred in 2019 with the addition of B.Pharm, D.Pharm (Allopathic), D.Pharm (Ayurveda), and D.Nursing (Ayurveda) programs. Since then, all faculties have been operating successfully, enriched by competent faculty members. Our college is renowned for its academic excellence, discipline, and student-friendly environment, encompassing sports, NCC, NSS, cultural activities, and more. Its infrastructure, including a library, playground, canteen, Wi-Fi, and IT-based services, is unparalleled. Our distinguished and dedicated faculty, along with supportive staff, play a crucial role in achieving our institutional objectives. In 2024, we inaugurated a 100-bed Multi-Specialty Hospital to serve the community, catering to underprivileged individuals and medically underserved areas in the Sitapur district. We recognize the necessity of preparing our students to transform emerging life and workplace challenges into exciting opportunities, while also appreciating that modernization should harmonize with our traditions. I perceive my role as a catalyst in unlocking the inherent and latent potential within my students, contributing to the creation of a just and inclusive society. I warmly welcome you to our vibrant campus and extend my best wishes for your future endeavors.

S.P. Singh

Chairman, Maa Kamla Devi Shri Pitambara Vidyapeeth

K.P.Singh Memorial Institute of Pharmacy (KPSM)

K.P.Singh Memorial Institute of Pharmacy (KPSM) was established in 2019. The Institute is approved by AICTE and PCI affiliated from Dr. A.P.J. Abdul Kalam Technical University & Board of Technical Education, Lucknow.

The institute is consistently striving hard to achieve highest quality in every sphere of activity in order to shape your future as a Pharmacist.

Our focus is to fulfill this commitment by bringing in the philosophy that industry and education must co-exist while knowledge and experience will continuously and dynamically keep the students performing at the peak level, present and in the future.

KPSM came into existence since 2019, is exclusively consecrated in the field of Pharmaceutical education & research and continuously generating pharmacy graduates and post graduates. It's also offering opportunities to contribute to the pharmaceutical industry right from licensed pharmacists to pharmaceutical scientists who develop the medications, actively involved in dosage form design, conduct research, recrudesce formulation and are administrators in the pharmaceutical industry.

Pharmacy is a profession that involves the manufacture and distribution of prescription drugs. Pharmaceutical sciences include chemistry and pharmaceutics as well as other specialized courses. The profession of pharmacist is a certified healthcare professional who specializes in spreading awareness about a wide range of drugs and therapeutic options. They are not only knowledgeable about all drugs but also about their application and harmful consequences. A pharmacist, often referred to as a chemist, is a healthcare professional who works in a pharmacy. He or she can recommend over-the-counter treatments as well as dispense medications or prescriptions that have been approved by a medical practitioner. Pharmacists are classified into several categories, including community pharmacists and hospital pharmacists. The importance of pharmacy colleges is very important in this context.

Since you will be the first person patients approach for information about their condition, this is a career that is highly patient-centric. Pharmacists are often encouraged to offer medical advice if a patient's symptoms are not severe. This means that pharmacists must be able to evaluate a patient's concerns and respond to them appropriately promptly. Pharmacists also have the option of pursuing scientific research and development opportunities in the workplace, which can further expand your career options and diversify your role. It's worth considering that universities and research institutes also recruit pharmacy graduates directly if this type of work interests you.

Additionally, as a pharmacy graduate, you'll benefit from career stability, as the skills gained through a pharmacy degree are highly specialised, and pharmacist knowledge is in high demand worldwide. In 2019, it was estimated that 80 percent of pharmacy students found employment within six months of completing their university course.

Maa Kamla Devi Shri Pitambara Vidyapeeth Teacher's Training Institute

Maa Kamla Devi Shri Pitambara Vidyapeeth Teacher's Training Institute seeks to advance and educate the teachers of tomorrow. The Institute offers aspiring teachers two degrees- a Bachelors of Education (B.Ed) degree and a Diploma in Elementary Education (D.El.Ed) or B.T.C. The Bachelors of Education Programme, is a professional course that prepares teachers for upper primary or middle level (classes V to VIII), secondary (classes IX to X) and senior secondary levels (classes XI to XII).

While the Diploma in Elementary Education aims to prepare teachers for the elementary stages of education including how to fulfill the basic learning needs of all children in an inclusive school environment along with bridging social and gender gaps with the active participation of the community. The programme is designed to produce teachers that shape children during their formative years i.e., classes I to VII/VIII.

“The Main Aim of Education is a training of the body, mind, and spirit. Therefore, we train students to develop their academic ability, practical skills and inculcation of good values & morals in our students. We achieve the aim of all-round development of Student with the help of our curriculum.”

The purpose of establishing a Teacher Training College (TTC) is to prepare and equip aspiring teachers with the necessary knowledge, skills, and attitudes to effectively function in the teaching profession, ultimately contributing to a high-quality education system.

Professional Development:

TTCs focus on providing comprehensive teacher education, including both theoretical and practical training, to ensure that teachers are well-prepared for the classroom.

Curriculum Development:

They play a crucial role in developing and implementing effective curricula that meet the needs of students and the evolving demands of the education system.

Research and Innovation:

TTCs often engage in research to improve teaching practices and explore innovative approaches to education, contributing to the advancement of the field.

Community Engagement:

They may also be involved in community outreach programs and initiatives to support local schools and educational initiatives.

Teacher Support:

TTCs can provide ongoing support and professional development opportunities for practicing teachers, helping them to stay current with best practices and address challenges in their classrooms.

Maa Kamla Devi ITI

Maa Kamla Devi ITI, has the adequate infrastructure, faculty and other recourses to facilitate the trainees in successfully completing their course/trade and opt for a more progressive and rewarding professional career in India & abroad. It offers a number of courses/trades along with admission opportunity as per the Government norms.

The vision of the Institute is to be a Centre of Excellence for Education, training, research, development and innovation. The mission for accomplishment of the vision is through imparting quality education, vocational training, and promoting skills development, entrepreneurship development with focus on value- addition, integration and optimal utilization of resources.

Digital Literacy Skills:

Using tablets regularly can help students develop essential digital literacy skills, which are crucial for success in today's job market.

Online Classes and Remote Learning:

Tablets can facilitate online classes and remote learning, providing flexibility and accessibility for students who may face challenges attending traditional classroom settings.

2. Career Preparation and Skill Development:

Industry-Relevant Software:

Tablets can be used to access and practice industry-specific software and tools, preparing students for real-world job requirements.

Project-Based Learning:

Tablets can support project-based learning, allowing students to collaborate on assignments, create presentations, and showcase their skills in a practical manner.

Networking and Collaboration:

Tablets can facilitate communication and collaboration among students and instructors, fostering a sense of community and shared learning.

Career Guidance and Information:

Tablets can provide access to career guidance resources, job boards, and industry information, helping students make informed decisions about their future careers.

3. Cost-Effectiveness and Accessibility:

Reduced Reliance on Print Materials:

Tablets can reduce the need for printed textbooks and handouts, leading to cost savings and environmental benefits.

ANNUAL REPORT 2024-2025

Distribution of Tablets (free of cost learning tablets) to students

A learning tablet helps students in many ways, especially in improving their writing skills. First, it provides access to educational apps and writing tools that assist with grammar, spelling, and vocabulary. These tools help students develop better sentence structure and writing style. Second, tablets allow students to practice writing through interactive exercises, digital notebooks, and typing programs, making learning more engaging and fun. Additionally, features like voice-to-text help students who struggle with handwriting or spelling. Finally, tablets provide access to online resources, such as e-books and research materials, which help students gather ideas and improve their writing skills. Overall, learning tablets make writing easier, more interactive, and accessible for students.

Tablets and smartphones distributed under the scheme empower students to access quality education conveniently, facilitating their academic journey. More significantly, these digital tools also serve as a stepping stone toward future job opportunities, aligning with the government's Jobs Scheme.

Under Swami Vivekanand Yuva Sashaktikaran Yojana, Member of Parliament Shri Rajesh Verma Ji distributed free tablets to all the students of KP Singh Pharmacy College & Maa Kmala Devi Shri Pitambara Vidyapeeth ITI lucknow. On this occasion, along with the MP, MLA and Chairman of the institution Surendra Pratap Singh Ji and Principal of B.Ed College Shri Aishwarya Pratap Singh Ji, Shri Shailendra Kumar Srivastava, Principal Maa Kamala Devi Shri Pitambara Vidyapeeth Inter College Para and other teachers were present. The students felt very happy to get tablets in their hands. Everyone's face lit up.

Bhandara organised by Maa Kamla Devi Shri Pitambara Vidyapeeth

Sensitising students on Rights and Accountability of Voting

Educating students about their voting rights is essential for fostering an informed and active citizenry. Schools and colleges play a crucial role in sensitizing young voters about the significance of participating in democratic processes. By conducting workshops, discussions, and awareness campaigns, students can learn about the importance of voting, the electoral process, and their rights as citizens. Encouraging them to register as voters and emphasizing the impact of their choices on governance and policy-making helps build a responsible electorate. Empowering students with this knowledge not only strengthens democracy but also instills a sense of civic duty, ensuring they contribute to shaping the future of their nation.

Voting is connected with a host of positive benefits for individual voters and nonprofits alike. Compared to non-voters, voters are more likely to volunteer, contact their elected officials, and stay informed about local affairs. To learn more about the benefits of voting, and why getting started with voter engagement may be right for your organization, see our full “Benefits of Voting” resource [here](#).

Importance of Voting :

Voting is a powerful way for people to make their voices heard and help shape the future of their country. It's a simple yet significant act where citizens choose their leaders and influence important decisions that affect everyone. While students might not be old enough to vote yet, understanding the importance of this right is essential. Learning about voting helps us realise that every vote counts and that each person has a role in creating a better society. It's a key part of democracy and a responsibility that every citizen should take seriously.

ANNUAL REPORT 2024-2025

Celebration of World Pharmacy Day at Campus

World Pharmacists Day, celebrated annually on September 25th, recognizes the vital role pharmacists play in global health, promoting awareness of their contributions and encouraging activities that advocate for their role in improving health worldwide.

Purpose:

The day aims to highlight the importance of pharmacists in healthcare systems, emphasizing their expertise in medication management, patient counseling, and promoting overall well-being.

Benefits:

Increased Public Awareness: World Pharmacists Day raises public awareness about the crucial role pharmacists play in healthcare, helping people understand their expertise and the services they offer.

Advocacy for Pharmacists: The day serves as an opportunity to advocate for the recognition and support of pharmacists, ensuring they have the resources and opportunities to contribute effectively to healthcare.

Community Engagement: It encourages community involvement of pharmacists on national and local levels, fostering collaboration and improving patient outcomes.

Promoting Health: World Pharmacists Day emphasizes the role of pharmacists in promoting disease prevention, administering vaccines, conducting health screenings, and educating patients.

Global Health Focus: The day highlights the importance of pharmacists in addressing global health challenges, ensuring access to medications, and providing expertise in pharmaceutical care.
